

# Stock Classic Rounds

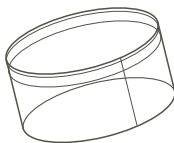

These containers feature a solid metal bottom for maximum durability and the strength to handle heavy items. A beaded lip adds rigidity around the top and a nice tight seal with the lid.

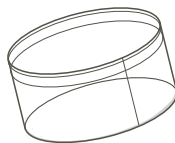

Classic Rounds			
Diameter x Height	Case Quantity	Shipping Weight	Item Number
6" Dia. x 1" Plain	110	16	600X100MPP
6" Dia. x 1 5/8" Plain	66	11	600X110MPP

\*Limited Quantities

You can choose completely clear sides or one of two decorative treatments around the bottom.

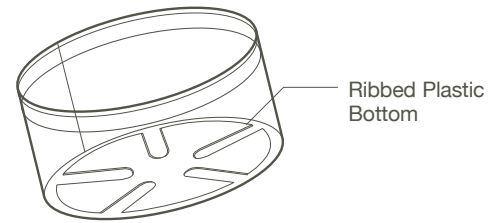

Plain

Lace

## Stock Traditional Rounds

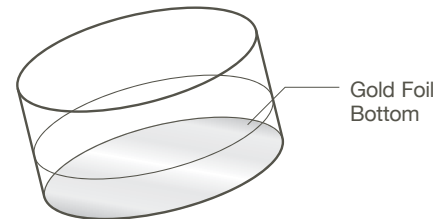

Traditional Rounds are a lower cost alternative to Classic Rounds, these containers use a reinforced ribbed white plastic bottom instead of a metal bottom. They're great when you need a strong container for high volume applications.

Traditional Rounds			
Diameter x Height	Case Quantity	Shipping Weight	Item Number
6" Dia. x 1" Plain	110	9	600X100PPP*
6" Dia. x 1 5/8" Plain	66	7	600X110PPP

## Stock Econo Rounds

The most cost-effective round containers, Econo Rounds use a simple two-part construction: a full-height lid telescopes over a seamless bottom. The bottom is clear, but it can be enhanced with an oil-resistant gold foil cardboard insert.

Econo Rounds			
Diameter x Height	Case Quantity	Shipping Weight	Item Number
6" Dia. x 1 5/16"	121	11	ECONO600*
